PROFESSIONAL SUMMARY

Data and project Management professional with 4 years of experience. Combines hands-on analytics (Databricks, Python, SQL, Power BI) with delivery work: KPI frameworks for a product launch, IT demand and IT portfolio planning and product ownership for ServiceNow. Master's thesis: hybrid RAG over SQL data and documents.

Core competencies: Databricks, Python & SQL | Power BI & KPI frameworks | IT demand & portfolio management | Product ownership & Scrum | Requirements workshops & BPMN 2.0 | Machine learning & LLM/RAG

CAREER HIGHLIGHTS

- Customer retention raised from 15% to 50% through churn and drop-off analysis (Bajaj Finance).
- 80% of recurring reporting automated with Databricks workflows, Power BI and Tableau (Bajaj Finance).
- 40% share of monthly product sales from data-driven acquisition plans and calling lists (Bajaj Finance).

PROFESSIONAL EXPERIENCE

Master's Thesis – Data & AI Solutions | PowerCo SE 09/2026 – Present
Volkswagen Group's battery company
Salzgitter, Germany (Volkswagen Group) | Tools: Python, SQL, Databricks, Vector Search, LangGraph, LLMs

- Enabling knowledge access across documents and databases by developing a **hybrid RAG framework** that combines document and SQL retrieval.
- Orchestrating retrieval workflows with **LangGraph**, fed by Databricks pipelines that prepare structured and unstructured enterprise data.
- Evaluating answer quality for data reliability, source coverage and traceability across all retrieval workflows.

Data Analytics Intern (alongside M.Sc.) | PowerCo SE 03/2026 – 08/2026
Salzgitter, Germany (Volkswagen Group) | Tools: SQL, Databricks, Python, Power BI, Power Query, DAX

- Turned semi-structured readings from 200+ machine sensors across the battery production stages into a structured database model for analysis.
- Assessed machine readiness through plausibility checks on sensor and traceability data and investigated data discrepancies.
- Built Power BI and Grafana dashboards that operations and management use to track machine status and production KPIs.

IT Demand & Portfolio Management Intern (alongside M.Sc.) | PowerCo SE 09/2025 – 02/2026
Salzgitter, Germany (Volkswagen Group) | Tools: ServiceNow, Jira, Azure DevOps, Confluence, Power BI, Excel

- Collected and prioritised 15+ IT demands from 10+ stakeholders in 7 departments into the current budget and into annual and five-year IT planning.
- Introduced IT processes in BPMN 2.0 and created AI-assisted interactive training for product owners.
- Acted as product owner for ServiceNow: tested new releases, refined the backlog and took part in Scrum refinements and retrospectives.
- Ran requirements workshops with business and IT teams and wrote user stories and acceptance criteria in Jira and Azure DevOps.

Data Scientist | Bajaj Finance Ltd 10/2021 – 07/2024
Indian non-banking finance company
Pune, India | Tools: SQL, Python, Databricks, Power BI, Tableau, Salesforce (SOQL)

- Achieved an average **13% gain in new customers** (2022–2024) by planning marketing campaigns on customer, website and geographic data.
- Increased customer engagement by **20%** with data-driven targeting workflows and Databricks pipelines for cold-calling campaigns.
- Migrated **300+ tables** from the data warehouse to the data lake while keeping data integrity, constraints and pipelines intact.
- Built the reporting framework and KPIs for the launch of a new lending product, including market and competitor analysis across 2+ states, for sales and marketing.

EDUCATION

M.Sc. Project Management and Data Science | HTW Berlin, Berlin, Germany 10/2024 – Present
Projects: SECOM – machine-learning classifiers separating faulty from non-faulty semiconductor production runs.
RailSem – obstacle detection on railway imagery with a digital twin.

B.Eng. Mechanical Engineering | Savitribai Phule Pune Univ., India 06/2017 – 05/2021

SKILLS

Data & AI: Databricks | Python | PySpark | SQL | Machine learning | LLMs | RAG | Power BI | DAX | Tableau

Project & Process: IT portfolio management | Product ownership | Scrum | Requirements analysis | BPMN 2.0 | UAT | IT budget planning

Tools: Jira | Azure DevOps | Confluence | ServiceNow | Git | Excel

CERTIFICATION & LANGUAGES

Certification: Google Data Analytics Professional Certificate

Languages: English – C2 | German – B1 | Hindi – C1 | Marathi – Native
